School Department

To the superintending school committee and
to the citizens of Owl's Head:—

Please accept my eleventh annual report.

The present year has seen no change in our teaching force and no marked changes in our schools.

Our teachers have served faithfully, employing approved and modern methods, the pupils have co-operated, no serious disciplinary troubles have arisen and the progress has been very good considering the very crowded condition at Ingraham's Hill and Timber Hill.

The schools mentioned have altogether too many pupils and too many grades to permit the best work. At times there have been fifty pupils in each school with all eight grades, virtually nine grades with the younger beginners.

At Timber Hill it has been necessary to use the assistance of the older girl pupils with the smaller children. This deprives them of a part of their study time and gives the pupils untrained helpers. Teachers cannot do more than give all their time. When Mrs. Scammon was ill the school was fortunate in securing the services of Mrs. Page, an experienced teacher of exceptional ability.

In these trying times it would be worse than useless to advocate any expansion or building program. The need however, is critical and as soon as the times will permit, the town must give some relief if the citizens wish to give justice to the children.

Our committee has been faithful in its stewardship of the town's money, keeping within the amounts allotted for school purposes. A reduction has been made in salaries and other expenses where it has been possible without injury to the work of the schools.

Smaller appropriations are recommended, because of the times but we look forward to better times when it will be possible to give the children better opportunities.

Certain repairs should be made this year. Besides the usual matter of broken windows, new door knobs, etc., the underpinning of the Ash Point schoolhouse should be attended to. This building is hard to heat and with a jacket on the stove, the room should be more thoroughly warmed than ever before.

As there are many young pupils in the schools and as they grow older the demands on our book accounts increase. With overworked teachers more books are needed to make the schools efficient. A larger appropriation is necessary.

Much good work has been done in the interests of the children's health. Clinics were held and surgical work as well as dental work was done. Much credit is due the lady members of the committee and

(31)

the other generous ladies who helped in this work and to the nurses and doctors. This work should be continued. A sound mind in a sound body is a good slogan.

I thank the town officials for their kindness and co-operation and wish to express my appreciation of the support of the citizens of Owl's Head.

Respectfully submitted,

F. L. S. MORSE.
